You have opened the electronic edition of the East Carolina University *Fact Book 2000-2001*. This electronic format provides some features that will make the Fact Book easier to use than its paper form.

We have provided links so you can move directly from an item in the Table of Contents, the ECU organizational chart, or the Highlights pages to the chart or graph you want to see. Click on any bright blue text item on your screen to go to the referenced page. Use Adobe's navigation tools to go back to the Table of Contents or to leaf through the pages of the book. Should you need a paper copy of a table or chart, Acrobat permits you to print selected pages.

You will notice some blank pages in the book. These are "spacers" so that, if you choose to print the entire Fact Book, your copy will be exactly like the paper edition.

We hope to meet your data needs through this web site.

We have proofed these charts and graphs exhaustively in an effort to assure that this information is accurate. However, if you find an item you believe is incorrect, please call it to our attention. In addition, if you have suggestions about the presentation of the data, or regarding data that you think should be added to future fact books, let us hear from you. An evaluation form is included for your convenience immediately behind the Preface page. Or, you may call me at 328-1436, or e-mail me at pattersonba@mail.ecu.edu.

Preface

The East Carolina University *Fact Book* is an annual publication that provides a ready source of information to answer frequently asked questions about the University and its operations. It contains a broad spectrum of information about the past and present. Its primary purposes are to promote organizational understanding and to inform decision making. Some of the information presented in this annual edition is taken from administrative reports produced by various university offices. Planning and Institutional Research thanks those offices for their valuable assistance.

The preponderance of information presented in this edition of the *Fact Book* relates to on-campus student enrollment. However, East Carolina University, in an effort to provide wider educational opportunities in the region, offers a number of courses off-campus or via Internet-based instruction. For the first time, the Fall 2000 enrollment report presented to the University of North Carolina Board of Governors by the Office of the President included off-campus enrollment in the total enrollment count for each of the universities in the system. In the future, to reflect the way information is presented to the Board of Governors as well as to many other external constituencies, the *Fact Book* will include off-campus enrollment in more of its analyses. However, most of the data presented in this edition of the *Fact Book* examines only the on-campus enrollment. Enrollment figures which include off-campus (distance education) enrollment may be found on pages [83](#) and [84](#).

PIR intends to continue refining the *Fact Book* every year, and welcomes your comments and suggestions for improvement.

History Of East Carolina University

Chartered by the North Carolina General Assembly on March 8, 1907, East Carolina University has moved in a rapid and orderly transition from a two-year normal school to a four-year college to a major comprehensive university to a doctoral II level university whose outreach now transcends its regional origins.

On October 5, 1909, East Carolina Teachers Training School began its first regular session; during that year 174 men and women students were enrolled. The first class to graduate from the two-year normal curriculum received its diplomas on June 6, 1911.

The institution was authorized by the General Assembly in 1920 to institute a four-year teacher education curriculum and to confer the baccalaureate degree upon its graduates. The Board of Trustees proposed in 1921 that the name be changed.

East Carolina Teachers College was authorized in 1929 to initiate graduate programs, and it conferred the first Master of Arts degree in 1933. In 1941 the college was charged to plan for a liberal arts program.

In 1951, to reflect the institution's expanding academic commitments, the name was changed to East Carolina College. As the fastest growing educational institution in North Carolina, by 1960 it had become the state's third largest institution of higher learning.

During the expansion of the sixties, East Carolina was reorganized to reflect the structure of a comprehensive university. In addition to the College of Arts and Sciences, the Graduate School, and the General College, seven professional schools were established. In 1967 the General Assembly authorized university status. There-

after, East Carolina University continued its academic advancement and extended its services to address regional and national challenges.

The General Assembly restructured public higher education in North Carolina in 1971, making the University a constituent member of the University of North Carolina. The charter class of the four-year medical school enrolled in 1977. In 1979 the University was authorized to develop five Ph.D. programs in basic sciences related to medicine. East Carolina University awarded its first Ph.D. degree in 1983.

The University presently consists of eighteen departments within the College of Arts and Sciences, twelve professional schools, the General College, the Graduate School, and the Division of Continuing Studies.

East Carolina University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number 404-679-4501) to award bachelor's, master's, and doctoral degrees.

Prepared by Mary Jo Bratton, Professor Emeritus of History

Note: During 1998, East Carolina University achieved Doctoral II status. ECU offers doctoral degrees in Education, Bioenergetics, Communication Sciences and Disorders, Coastal Resources Management, Biomedical Physics, Pharmacology, Physiology, Microbiology and Immunology, Biological Sciences, Anatomy and Cell Biology, Biochemistry, and Medicine.

Note: The faculty count may differ from other PIR faculty tables due to the inclusion of temporary faculty and faculty also in administrative positions. Faculty are included here based on the following criteria: (a) currently employed in an EPA position, (b) coded as faculty or administrator with rank of Professor, Associate Professor, Assistant Professor, Instructor, or Lecturer, and (c) "Rank Modifier" data base value of "None," "Distinguished," "Clinical," "Research," "Librarian," "Visiting," "Visiting Distinguished," or "Visiting Librarian."

Note: Tenured and tenure-track faculty who are partially on leave-without-pay to work on other projects or grants are included.

Note: Faculty headcount and FTE do not include ROTC faculty, and are based on home department assignments.

Note: Totals may not be exact due to rounding.

Note: The "part-time, not-on-tenure track" faculty total includes faculty who are in "phased retirement" status.

Note: Totals may be inexact due to rounding.

Note: This chart includes medical school personnel.

Note: Tenured and tenure-track faculty who are partially on leave-without-pay to work on other projects or grants are included.

Note: "Total faculty" shown in this table differs from other PIR tables due to the inclusion of temporary faculty and faculty in administrative positions. Faculty are included here based on the following criteria: (a) currently employed in an EPA position; (b) coded as faculty or administrator with rank of Professor, Associate Professor, Assistant Professor, Instructor, or Lecturer; and (c) rank modifier data base value of "None," "Distinguished," "Clinical," "Research," "Librarian," "Visiting," "Visiting Distinguished," or "Visiting Librarian."

Note: Faculty headcount and FTE do not include ROTC faculty, and are based on home department assignments as recorded in the Personnel Data File.

Note: Totals may be inexact due to rounding.

Note: The "part-time, not-on-tenure track" faculty total includes faculty who are in "phased retirement" status.

Note: Tenured and tenure-track faculty who are partially on leave-without-pay working on other projects or grants are included.

Note: The faculty count may differ from other PIR faculty tables due to the inclusion of "temporary" faculty and faculty in administrative positions. Faculty are included here based on the following criteria: (a) currently employed in an EPA position, (b) coded as faculty or administrator with rank of Professor, Associate Professor, Assistant Professor, Instructor, or Lecturer, and (c) "Rank Modifier" data base value of "None," "Distinguished," "Clinical," "Research," "Librarian," "Visiting," "Visiting Distinguished," or "Visiting Librarian."

Note: Faculty headcount and FTE do NOT include ROTC faculty; headcount is based on home department assignments; FTE are distributed across departments as appropriate when a faculty member is assigned to multiple departments.

Note: Totals may be inexact due to rounding.

Note: The "part-time, not-on-tenure track" faculty total includes 36 faculty (17.1 FTE) who are in "phased retirement" status, and 1 retiree (0.05 FTE).
